### **Team Wellness Center Offers New Treatment Program to Combat Opioid Epidemic**

Detroit, MI (June 21, 2018) - Team Wellness Center recently announced the launch of a Suboxone clinic. The agency is now providing treatment for individuals facing opioid dependency at its Team-East location 6309 Mack Avenue, Detroit, MI 48207.

"Suboxone treatment is a solution that has proven to be effective in helping individuals with an opioid dependence," said Pamela Jastrabek, President & COO of Team Wellness Center. "Adding the program to our other substance use therapies increases our chances of helping people transition into recovery."

The program was started in response to Detroit's growing opioid crisis. According to a report by the Michigan Department of Licensing and Regulatory Affairs, there were 477 drug-related overdose deaths in Detroit between 2013 and 2015.

Suboxone is a prescription medicine used to treat individuals with an opioid dependence. Suboxone treatment is an evidence-based, medication-assisted detox therapy method used to decrease the physical cravings and withdrawal symptoms associated with opioid use.

Team Wellness Center's substance use disorder treatment program addresses the use and abuse of alcohol and other drugs. Their team of experts use a variety of practices to treat the whole person while holding them accountable for their sobriety outside of the clinic.

Local substance use and mental health providers can refer individuals to the program. Those who are battling opioid addiction or have a loved one who has become dependent on the use of these pain medications can also contact Team Wellness Center directly.

For more information about the suboxone program and to make an appointment or referral call Team Wellness Center at 313-331-3435.
